PROFESSIONAL SUMMARY

Aspiring Web Developer with a strong interest in designing and developing modern, responsive, and user-friendly websites. Familiar with HTML, CSS, and JavaScript, with hands-on experience building and deploying personal web projects. Passionate about learning new technologies, improving problem-solving skills, and creating engaging digital experiences.

TECHNICAL SKILLS

- **HTML5:** Creating structured and semantic web pages.
- **CSS3:** Styling, layouts, animations, and responsive design.
- **JavaScript:** Basic website interactivity and functionality.
- **GitHub:** Version control and project management basics.
- **Netlify:** Website deployment and hosting.
- **Responsive Web Design:** Creating websites for desktop and mobile screens.

PROJECTS

1. EMBER & OAK — Restaurant Website

Technologies: HTML, CSS, JavaScript

- Designed and developed a modern restaurant website.
- Created sections for the homepage, restaurant story, menu, and contact information.
- Implemented responsive layouts for different screen sizes.
- Added interactive elements using JavaScript.
- Published the website using GitHub and Netlify.
